## Complimentary Banquet, Presentation, O. E. S. Whiteside

Coleman and Crows' Nest Pass friends of O. E. S. Whiteside, retiring manager of International Coal & Coke Co. Ltd., paid fitting honor to him at a banquet and presentation in the Grand Union hotel on Tuesday evening.

Toasts given were "To the Coal Industry," proposed by Chas. Emmerson and responded to by J. J. McIntyre; "The Old Timers" proposed by J. H. Farmer and responded to by J. E. Gillis; "Our Guest of Honor," proposed by H. T. Halliwell and G. Kellock, to which Mr. Whiteside made reply in which he acknowledged the many graceful tributes expressed towards himself and wife and daughter.

A presentation of a fine set of golf clubs and bag, by Robert F. Barnes, bore an engraved plate with the following inscription:

"Presented to O. E. S. Whiteside by his many friends in the Crows Nest Pass on his departure from Coleman, March 1935." Geo. Kellock ably presided as toastmaster, and expressed regret that Alex Morrison was unable to fill the chair owing to a severe cold.

Chas. Emmerson's references to the start of the coal industry in the Pass, which he humorously inferred was started by himself and Mr. Whiteside, provoked a smile, while J. H. Farmer's reference to old timers, including a lady who is now among the angels, though Blairmore still has some of her kind, recalled notable characters of earlier days in the Pass.

John Bell sang "Annie Laurie" and John Pietraske and Unie Johnson played a pianoforte selection.

A splendid menu was served by the dining room staff of the Grand Union hotel.

O. E. S. Whiteside

Under his management, International Co. has increased in importance in the bituminous field, and with it and the McGillivray Co., under the general management of Mr. G. Kellock, Coleman has developed into the leading coal mining town in Alberta, with a population of approximately 3,000 souls. To lay down the responsibilities of management after 28 years of steady development is not done lightly, however well the retiring manager may have earned it, it is hoped, a good many years of pleasurable leisure. A noteworthy feature at this time is the evidence of good-will displayed not only by his business associates and friends, but also by the staff and workers of the company, whose finest tribute is—"O.E.S. was always a gentleman."

His life's work has been in the mining industry, 40 years of it spent in seeing Alberta develop from originally a part of what was then known as the Northwest Territories into the splendid province of today, and of which it might be said he has been one of the builders, for the coal mining industry has paid more in wages in proportion to production than any other industry in Canada.

O. E. S. Whiteside was born at Metcalfe, Ont., in 1870. His early education was obtained at the Ottawa Collegiate Institute, from which he entered McGill University in 1890, securing the Jeffrey Bursdale scholarship. He graduated with first honors in natural science in 1894 with the degree of B.A. Sc. Later, in 1900, he took his M.A. degree. After graduating he was employed for a few months in the McGill Observatory before

## Official Announcement on Unified Management of International and McGillivray Coal and Coke Companies

The following announcement was issued following the directors' meetings of International and McGillivray companies.

"At the meetings of the directors of McGillivray Creek Coal & Coke Co. Ltd. and International Coal & Coke Co. Ltd. held on March 28, 1935, at the head offices of the respective companies in Coleman, a policy of unified management of both companies was decided upon.

"In connection with the new arrangements Mr. O. E. S. Whiteside retires from the position of general manager of International Coal & Coke Co. Ltd., thus severing about 28 years association with the company.

"Mr. George Kellock, general manager of the McGillivray Company, assumes the general management of the International Coal Co., also retaining the general management of McGillivray Co. Consolidated Mining and Smelting Co. of Canada has recently acquired a substantial interest in both these companies and contracts for a steady supply of coal and coke from the mines are now in operation. These new arrangements and contracts should result in steadier employment of the miners and substantial economies in operation."

## Canadians Lose Wright Cup to Medicine Hat Monarchs

The Wright cup, emblematic of the Crows Nest Pass hockey championship and held by the Canadians for the past three years, was finally wrested from their grasp, Saturday, when they submitted to a 3-2 overtime defeat by the Medicine Hat Monarchs on the latter's home ice.

Canadians won a listless exhibition game at Lethbridge, 6-2. Of interest to local fans was the appearance of one, Joe Fisher, on the local line-up.

Fisher made an auspicious start in his first game, receiving credit for two assists. He hails from Medicine Hat but played for an Edmonton junior team this winter. He plays left wing and is reported to be a good prospect for next season.

Jack Kwassie, coach, will also be in uniform next season as he is allowed by the C. A. H. A. to participate in amateur hockey Jan. 1, 1936.

## Scottish Musical Players To Say Au Revoir For Two Years

Arrangements have been completed to bring the Scottish Musical Players to the Community hall for one performance only Saturday, April 13. This will be the farewell appearance for at least the next two years in Coleman of these most popular entertainers. "A Highland Love Song" will be the offering. It was written by clever Wm. T. Wilson. It is in two acts, bulging with funny situations, ludicrous and side splitting comedy, new songs, intricate dances and gives the entire company an opportunity of appearing at their very best, both musically and otherwise. Mary McMahon, Edythe McGregor, Florence Reed, Ann Forsythe, Gordon Douglas, Randolph Salmons, T. McAllister Wallace and W. T. Wilson will all be seen and heard in entirely different portrayals from their other offerings. "A Highland Love Song" is sure to leave a lasting impression.

The company came almost directly here from a most successful engagement at the Vancouver Theatre and move on the following week to the Grand Theatre, Calgary.

### ANNOUNCEMENT

The anniversary supper of St. Paul's United church will be held in the Knights of Pythias hall on Monday, April 8, from 5 to 7 p.m. Everybody invited. Admission 50c.

SOLD BOTH SIDES ARMS  
Emmie S. Jones, agent for a United States munitions company in South America, is pictured as he was sworn in as a witness before the Senate Committee investigating armament transactions in Washington. Testimony that United States companies sold arms both to Paraguay and Bolivia in the Gran Chaco war was presented to the committee.

## Boy Scout and Girl Guide Notes

Coleman Troops

Boy Scouts in uniform will canvas in this district on Saturday April 6th, or April 13th for the King George V. Silver Jubilee Cancer Fund, according to word received from provincial headquarters, Calgary. At each home or place of business the scouts will leave an envelope bearing the name and address of The Countess of Bessborough.

The scouts are not collecting funds. Those wishing to contribute to assist Geo. Evans. He reported the appearance of this worthy work will then enclose their name of rosters two weeks ago.

Ma. or Pattinson and A. M. Morrison are anxious to their homes suffering from severe attacks of the flu.

J. H. Charbonneau of Calgary has commenced work in Graham's barber shop.

Read the ads and save money.

## MISCELLANEOUS

Mrs. Geo. Pattinson has kindly loaned her home for the Rangers Tea on Saturday afternoon from 3 to 6 p.m. All are cordially invited. It is in aid of the Jamboree fund, which has met with splendid support.

Lewis Jones and David Hoyle were nominated to represent the local Social Credit Group at the provincial convention at Calgary this week.

Two bluebirds were seen this week by those wishing to contribute to assist Geo. Evans. He reported the appearance of this worthy work will then enclose their name of rosters two weeks ago.

Ma. or Pattinson and A. M. Morrison are anxious to their homes suffering from severe attacks of the flu.

J. H. Charbonneau of Calgary has commenced work in Graham's barber shop.

## Local Observance of King George's Silver Anniversary

Canadian Legion Requests Mayor and Council to Call Meeting of Civic and Fraternal Organizations

Monday, May 6, has been proclaimed as an Empire holiday for the observance of the 25th anniversary of King George's accession as constitutional head of the British Empire and the Dominions Beyond the Seas.

With the sanction of the king's advisors, an order of service of about an hour's duration has been suggested to take place in all national and provincial capitals as well as the smaller centres of population, and the Canadian Legion this week in executive meeting decided to ask Mayor Pattinson to call a meeting of civic organizations, school trustees and teachers, representatives of fraternal organizations and interested citizens to arrange a suitable program for the appropriate observance of the occasion.

## Musical Recital

On April 2 in St. Alban's parish hall a recital was given under the direction of Miss M. Powell, the following taking part: School orchestra, Freda Antrobus, pianoforte selections; Owen Jones, violin; Ias Ramsay, Scottish songs; Imay Hadley, songs; John Pietraske, violin; Winona Taylor, songs; Rudolph D'Amico, violin; Olga Belevich, violin; Elizabeth Moore, violin. Parents and friends of the students enjoyed the program.

Paul Steadman solicits your patronage at his new Coleman Bakery store, next liquor vendor's, which he opened this week.

Jimmy Evans returned home this week having played with the Portland Bucs in the Pacific coast hockey league this season.

"The L.O.B.A. will hold a sale of work and home cooking on Saturday, April 6, from 3 to 6 p.m. in the I.O. O.F. hall.

## Final Notice To All Owners of Dogs

This is the second and final notice that all dog licenses must be purchased from the Police Office at the Town Hall on or before April 15, 1935.

Failure to comply with this notice will render dog owners liable to prosecution, the penalty being in addition to the license, \$5.00 and costs of the court.

J. HOUGHTON, Chief of Police.

## A TEA FOR EVERY TASTE

## A WELCOME DECLARATION OF WAR

The people of Canada, under the leadership of their Excellencies the Governor-General and Lady Bessborough, supported by the Provincial Governments, all political parties, the churches, the press, the medical profession, organizations of every description, and men and women of goodwill throughout the length and breadth of the Dominion, have decided to commemorate the twenty-fifth anniversary of the accession of King George V. to the throne of the world's greatest empire on May 6 by a declaration of war.

Canadians are a peace loving people; they abhor war, and their whole history proves that they never engage in war except when absolutely forced to it in self-defence, but, once in, they fight to the finish with all the strength, energy and resources they command. Fighting in their own defence they never remain on the defensive but adopt vigorous offensive tactics to bring about the defeat of the common enemy and safeguard their own existence. History proves this to be true.

So, with the lives of thousands of their people at stake, all Canada has decided to mark the Silver Jubilee of His Majesty, who has been well described as a kindly man and a manly king, by a declaration of war upon a common world enemy—cancer. The ammunition required to prosecute this 1914-1919 Canada supplied it in the hundreds of millions, yes, billions. In this new and humanitarian war a substantial war chest is essential to success, although not in the enormous sums referred to above. Every Canadian family is asked to contribute to the extent of their ability.

Mankind is forced to wage a continuing war against disease, and looking back over past years it is gratifying to know that, taken as a whole, it has been a successful war. A few years ago the great scourge was tuberculosis, the White Man's Plague, which topped the list of diseases afflicting the race. To-day it is in retreat, now far down in the list, with a steadily diminishing number of victims.

Yellow fever, which once counted its victims by the thousands, is unknown, smallpox has been eradicated; diphtheria, which carried off children by the thousands, has been conquered through the discovery and use of anti-diphtheria serum; cholera, typhus, and other plagues are now practically unknown, with the result that the expectation of life has been more than doubled, nearly trebled, within the past 100 years.

On the other hand, the ravages of cancer continue to increase until to-day it is responsible for more deaths than any other disease with the single exception of diseases of the heart. Cancer comes second on the list and in 1933 was responsible for 10,646 deaths in Canada as compared with 7,614 only seven years previously in 1926, and the toll is progressively rising higher each year, having increased from 93.9 per 100,000 in 1931-32 to 100 per 100,000 in 1933.

This is the common enemy that now calls Canada to arms and has resulted in this Silver Jubilee declaration of war. Contrary to a view widely held, cancer is not an incurable disease. It can be cured if it is discovered and treatment commenced in its early stage. Early diagnosis is the all-important factor. But to secure early diagnosis involves, first, education of the public, the provision of a largely increased number of qualified diagnosticians, and facilities for treatment throughout the whole country. These are the essential munitions in this war, and they cost money.

The people of Canada, the rich, the merely well-to-do, even the poor, are called upon to enlist in the army of attack on this dread enemy which is now on the offensive against our people and scoring a victory over us. As a Canadian people we must now take the offensive, take it boldly and in a large way, and fight back. If we do, success can and will be achieved.

The idea of the "King George V. Silver Jubilee Cancer Fund for Canada" is an admirable one. It will be administered by trustees and every dollar, or as many more dollars as they can. Contributions may be sent to Lady Bessborough, Government House, Ottawa, who will acknowledge every donation received, large or small, on a card bearing the portraits of the King and Queen.

Thus does Canada propose to commemorate the Silver Jubilee of His Majesty by the creation of a permanent national and social fund. It will be an expression of the loyalty and affection of the Canadian people to His Majesty and at the same time a tangible, lasting and humanitarian record of a great national event.

We are glad to add the support of this column to the nation-wide appeal now being made in support of this effort to commemorate a reign that is gracious approval of His Majesty and as something designed to be of lasting value to suffering humanity.

## The Right of Way

According to the new traffic regulations in England the pedestrian has the right of way and motorists are not entitled to make anybody "pull back" at a crossing, the Marylebone magistrate, Ivan Snel, stated in fining a woman motorist \$25.00.

A police judge says women now do 70 per cent. of the driving. But men still hold the steering wheel.

## No Indication Of Quality

Canned peas have the size of the pea stated on the label of the can. No. 1 is a very small pea, No. 2 is larger; No. 3 still larger, and so on. The size of peas is no way depends on the quality nor the quality on the size.

Isinglass comes from the swimming bladder of the cod and sturgeon still hold the steering wheel.

## Edwardsburg

**EDWARDSBURG**  
**EDWARDSBURG**  
**EDWARDSBURG**

AN ENERGY FOOD THAT HAS NOURISHED MORE CANADIAN CHILDREN THAN ANY OTHER CORN SYRUP

## Building Traffic Subways

Paris Found First One To Be Huge Success

Because of the success of the first traffic subway, Paris is pushing the construction of additional ones. These passages are designed to insure the continuity of the circular road built in place of the former fortifications surrounding Paris. This road, complete, will be nearly 20 miles long, 133 feet wide, and will permit the passage of six rows of cars. Side-walks on each side of the road are over three feet wide. Where this circular route meets the main arteries leading out of Paris it has been attempted, wherever possible, to direct traffic around a central plateau which serves as an axis. This eliminates to a certain extent the danger resulting from the crossing of cars from various directions and helps to reduce traffic tie-ups.

## Arcades For London Streets

Expert Predicts City's Shopping Centres Will Be Covered

Women will soon be able to do all their window-gazing under cover in London, according to a merchandising expert, who says that the shopping centres will be a series of arcades. Mannequins will emerge from the shelter of the stores, where they already are continuously on display, and appear in windows in place of the present wax figures, which have gone from the realistic to the fantastic and hack again.

## WAS CONSTIPATED FOR 30 YEARS

## Woman's Long Search For a Remedy

The trouble with most remedies for constipation, as this woman found, is that they give only temporary relief. Having at last found a permanent corrective, she writes to tell us about it.

"For upwards of 30 years I was a victim of acute constipation. I tried practically everything that was possible to try. I admit I was a chronic case, and every morning I tried for a day or two—after that I was just as bad as ever. Three months ago I took my first taste of Kruschen Salts, and every morning since, every morning so long as I live, my first duty upon rising is my Kruschen. I honestly feel a different woman. My bowels act to the clock, and my friends remark how well I am looking. My only regret is that I didn't try Kruschen years ago."

(Mrs. A. M. Kruschen Salts is Nature's recipe for maintaining a condition of internal cleanliness. The six salts in Kruschen stimulate your internal organs to smooth, regular action. Your system is thus kept clear of those impurities which, allowed to accumulate, lower the whole tone of the system.)

## Installs New Equipment

Montreal Institute One Of Leading Cancer Cure Hospitals

The Radium Institute of Montreal became one of the leading cancer treatment hospitals in the world with the installation of apparatus generating 500,000 volts. The institute hopes to raise the voltage mark to 1,200,000 in a short while. Dr. J. E. Gendreau, director, announced.

"This apparatus X-rays at a voltage of 500,000 were put in operation only after extremely careful physical measurements preparatory to cancer treatments, and the apparatus has been used for the first time on patients," Dr. Gendreau said. "This apparatus is the largest and most powerful in Canada and is surpassed by but a few in the United States or Europe," he said. He stressed the necessity of adequate institutes in different countries to fight cancer with great success.

## English Town Thrifty

The changing times have not changed the Yorkshireman's thrift. When the people of East Winton in North Yorkshire met to arrange their jubilee celebrations they found the village still had a halance left over from the coronation of their Majesties 25 years ago. So East Winton will use it to celebrate their jubilee.

## Best She Could Do

A rather stout woman was making herself a nuisance in the big shop which was holding its annual sale. Nothing, it seemed, would suit her, and the unfortunate shop-assistant was beginning to get a little weary. "Hav'n't you anything ready-made that will fit me?" asked the customer at last.

"Yes; the umbrellas and the handkerchiefs are downstairs, madam," the girl replied.

## There's A Reason

Interesting Explanation Of Place Names For Points On Vancouver Island

(By Frank Gilmora)

Place names are not like Topsy, they didn't just grow, nor are they picked blindly out of a hat. There is a reason for each and a story attached. In fact, place names are the bricks of which histories are built. Consider, for example, Vancouver Island, where quite possibly you will be spending your holidays this summer. Put a map of the island before you and look at the names, Victoria, Sooke, Alberni, Victoria Peak, Courtney, Qualicum, Cameron Lake, Ladysmith, Nanaimo, Comox, Campbell River, Mt. Arrowsmith, Victoria Peak, Shawanigan Lake, Parkville, Cumberland. Just a cursory glance at such shows you that Indians, Englishmen, Scotsmen and Spaniards have at some time or other formed and lived in cities, villages, settlements or communities sufficiently important to have special names, these names being given by or on account of their inhabitants.

But they tell us more than that, each place having its own local history which its name is generally the key, and of which it is also a many cases descriptive. Take the Indian word "Esquimalt", the name of the municipality adjoining Victoria on the west. It means shallow, shelly beach, obviously just the kind of landing place the Indians in their dugout canoes would be looking for. So you see we know from the word that Esquimalt was an Indian harbour before the British navy used it as a naval base.

On the other hand, the name Victoria has nothing whatsoever to do with the aborigines or Spaniards, being straight English. The city was founded as a fort by the Hudson's Bay Company, being first called Fort Albert after Queen Victoria's royal Consort, the name, however, being almost immediately changed to Victoria, in honour of the great queen then reigning, in 1822. Prior to the founding of the Hudson's Bay fort the Indians knew the present site of Victoria as Camosun or Camosack. Another name of the peninsula upon which Victoria is built, denotes the land of an Indian tribe of that name, while the name Malahat, which should be Malakut, means plenty bait, referring to the waters at the foot of the famous Mountain which commemorates a great battle between two tribes, a battle fought with no quarter until, so the story has it, the surviving Cowichan tribe, incidentally one of the few tribes to take kindly to the white man's civilization. In the heart of the valley is the old mining country of the Malahat, named after its Scottish founder, and one of the most English of place names on Vancouver Island, let alone Canada generally. A very fine country town, Duncan, in the heart of a Scotch settlement, is named after those Scotch pioneers always close by.

On the northern edge of the Cowichan valley, the coal town of Ladysmith. Write it in two separate words, Lady Smith, and your curiosity immediately becomes aroused. A little investigation will reveal the name to a very, perhaps one might say one of the most, peculiar names known. Who was this lady, the only person to have a title perpetuated in a place name on Vancouver Island? Possibly you will imagine she was some local celebrity who won rank and fame. The actual facts are quite different.

When arrangements were being made in 1900 to open up the coal mines and found a city where Ladysmith now stands, the South African War was being fought, and the eyes of the world might be said to have been fixed on the town of Ladysmith, which, at the time, was being besieged by the Boers. On March 11, 1900, the town was relieved by Colonel Buller. The news caused immense excitement and the owners of the new townsite on Vancouver Island named their property Ladysmith in honor of the event.

So far so good. You now know that the whirligig of history has caused two towns to be named after Lady Smith, but you still do not know who the lady was. Well, she was the wife of Major General Sir Harry Smith, Governor and Commander-in-Chief in Cape Colony, South Africa. It was as his wife that the town of Ladysmith in South Africa was named after her. She was a Spaniard, and I often think the haughty dons may have turned up their noses when they heard she was marrying a Smith, for her maiden name was Juana Maria de los Dolores de Leon, and she was a lineal descendant of Ponce de Leon, famous in history as the Knight of Romance and searcher after the Elixir of Youth.

## Pedigree Certificates

The total number of pedigree certificates registered by the Canadian National Livestock Records, approved by the Dominion Minister of Agriculture, for the month of February 1935 was 6,916, as against 6,489 for February 1934. Horses numbered 228; cattle, 2,111; sheep, 451; swine, 461; dogs, 529; foxes, 2,926; poultry 190, and one goat.

The catcombs of Rome contain a total of 6,000,000 tombs. In places they are seven levels deep and cover a distance of 500 miles in area.

## "Growing" A Sea Wall

Rice Grass Effective In Preventing Flooding Of Land

The cultivation of rice grass on the low-lying lands of Essex and other similar mud flats in England may result in turning thousands of acres of waste land into profitable pasture. Spartina grass became known in Great Britain about 100 years ago through a few seeds dropping accidentally from some cargo ships at Southampton Docks. They took root and formed a hybrid with British grass which attracted the attention of agricultural scientists who saw the possibility of "growing" their sea wall instead of spending thousands of pounds on sea defence to prevent the land being flooded. Experiments have proved that such a wall built from the grass will not be worn away by the tide, and now Holland and Australia are planning rice grass with a view to converting large tracts of marshes into pastures.

## Correspondence Of Kings

Findings In Palestine Date Back To 700 B.C.

The correspondence between two kings dating back to the time of Jeremiah, 700 B.C., has been discovered by the archaeological expedition led by Prof. J. L. Starkey, of Great Britain, in the ruins of the discovery was made at Tel Ad-Dumiri, ancient city of Lachish. It consists of 12 ostraca fragments, which are taken to be an exchange of secret letters between the kingdom of Judah and the kingdom of Babylon or Egypt.

Details of the findings were made known to the Palestine government, but were not given out to the press.

The world has about six million square miles of ice to-day, most of it in Antarctica, but when the last ice age was at its height there was about twice as great an area of the world ice-blanketed.

Crocodiles of Africa sometimes grow to be 25 or 30 feet long.

## Bonus Paid On Coal

Canada Has Paid Out Over Six Million Dollars Since 1928

Since 1928 Canada has paid \$6,781,176 in subventions and other forms of assistance to aid the coal industry in the Maritime provinces and Alberta, a return tailed in the House of Commons said. Of that amount \$4,457,992 went to the Maritimes and \$1,859,958 to Alberta.

Payments made generally by the trade and commerce department to assist in placing Canadian coal used in the manufacture of iron or steel on a basis of equality with imported coal amounted to \$465,273, while "additional payments" made under the Domestic Fuel Act to the Maritime coal industry totalled \$87,903.

From 1931 to the present the amount of bonus paid on wheat was \$12,708,574. The outlay in the year 1931-32 when the five-cent-a-bushel bonus was in effect was \$10,908,428.

## Should Be Lucky

Schoolmaster In England Has Collection Of Unusual Horseshoes

A schoolmaster at Wimbledon is an ardent collector of horseshoes. But not ordinary horseshoes. He specializes in ancient horseshoes. The walls of one of his rooms are covered with scores of them. They even overflow to other rooms. One of his horseshoes was discovered on the site of a Roman camp. In all probability it was cast from the foot of a charger ridden by a Roman general.

## School Named After Prince

The Prince of Wales has consented to his name being given to a school for underprivileged boys established in British Columbia along lines identical with similar schools set up in Australia for some years past. The institution in British Columbia will be known as the "Prince of Wales Fairbridge Farm School."

Three uncancelled Geneva stamps issued in 1843 brought \$7,000 at a recent auction in London.

## The Abundant Vitality of Cod Liver Oil

**PLUS PLEASANT TASTE**

For over fifty years doctors have specified "Scott's Emulsion", wherever the bones building, strengthening qualities of pure cod liver oil were indicated. For Scott's Emulsion is more than just cod liver oil. Scott's Emulsion is pure cod liver oil, emulsified for easier digestion, greater efficiency and pleasant taste.

## Proposed Measure For Public Works May Be Submitted To House

Ottawa.—A public works scheme fashioned on a more comprehensive scale than has ever been attempted before in Canada has been under consideration by the government and may be presented to parliament before the Easter adjournment. It was the main subject under discussion at a long session of cabinet council.

Not only will the public works Construction Act of last year be extended and elaborated, but the new measure will take in other lines of industrial activity which may be assisted in the interests of general employment. It is intended to provide authority for government co-operation with industries manufacturing rolling stock and other rail equipment, and to cover any legislative action that may arise from the report of the commons committee on housing.

The prime minister announced in a public speech some months ago that the government was exploring the possibility of dealing with the housing problem. A house committee was formed to investigate this question and work has begun on its report.

Last year's public works legislation called for detailed expenditure of slightly less than \$40,000,000. Under the new basis of metallic coverage of Dominion currency, adopted after the world economic conference in unanimity with other conferring nations, it was possible for Canada to issue \$200,000,000 more than was then in circulation, and the expenditures under the bill were to be provided for with new money. Only a little more than \$5,000,000 was actually expended under the act during the fiscal year ended March 31, but more than half the total has been committed in contracts.

### "Stations" For Ocean Hops

Equipment Being Taken To Lonely Island In Pacific

San Francisco.—The steamer North Haven, bearing men and equipment to rear miniature cities on lonely islands destined to become way stations for trans-Pacific planes, sailed recently.

Everything from pre-fabricated buildings to buttons and safety pins made up the 6,000-ton cargo. These little cities will be the home of 118 men—no women—on aviation's new east frontier.

Midway Islands, one of the Hawaiian group 1,323 miles west of Honolulu, and Wake Island, 1,191 miles from Midway, were the destinations of the North Haven.

### Colonizing Palestine

Montreal.—The 1935 united Palestine appeal campaign to obtain funds for the furtherance of colonization in Palestine will be formally opened April 7, with a banquet in a Toronto hotel, it was announced here by the Zionist organization of Canada.

### Canada's Net Debt

Ottawa.—The net debt of Canada stands at \$2,847,678,000, according to a return tabled in the House of Commons. This is an increase of more than \$500,000,000 over 1928, when the net debt of the country was \$2,296,850,232.

## Japan Will Not Slacken Her Grasp On Mandated Islands Or Manchuria

Tokio.—Japan gave up her membership in the League of Nations but made it clear she has not the slightest intention of slackening her grasp on either her mandated islands in the equatorial Pacific, which the league bestowed upon her, or on Manchuria, which the league tried to take away.

Her seizure of Manchuria caused the disagreement with the league which led to Japan's secession two years ago.

Her determination to retain possession of the Pacific mandates had led Japanese Nationalists to point to March 27, 1935, as a day of "crisis," when Japan might have to take her stand against league members or other states that might want to terminate her possession on the

### Show Their Objection

Small Group Leaves South Africa House During Address To King

Capetown, South Africa.—The small group of Nationalist opposition members walked out of the chamber when the address of loyalty to His Majesty on the occasion of the silver jubilee came up for consideration in parliament.

The address, contained in the report of a select committee of both houses of parliament, was adopted without discussion. The address refers to the great constitutional changes through which the world has passed since His Majesty ascended the throne 25 years ago, and concludes:

"Throughout that critical period Your Majesty has set all our subjects an example of devotion to duty and personal sacrifice for the general welfare, which has been an unfailing source of strength to them."

Jon Hofmeyr, minister of health, announced a silver jubilee tuberculosis fund for South Africa will be founded.

### Training Farm Purchased

Courses In Agriculture Will Be Given To War Veterans

Ottawa.—Purchase of a farm, complete with buildings and equipment, on which Canadian ex-service men will be given short courses in agriculture, was announced by Col. W. C. H. Wood, Dominion president of the Army and Navy Veterans in Canada. The farm will be administered by the association, with the training carried out by experts of the Ontario agricultural department.

Col. Wood announced the training farm, comprising 115 acres and situated near Whitby, Ont., about 29 miles east of Toronto, was bought outright by the Army and Navy veterans. The association will provide the livestock and considerable attention will be given to training the men in truck gardening. Col. Wood emphasized this was an experiment and was a practical contribution towards a solution of the unemployment problems among ex-service men.

### Viscount Byng Recovering

Pasadena, Calif.—The condition of Viscount Byng, who was seriously ill here a few weeks ago following a heart attack, was described as remaining favorable. The former governor-general of Canada was described as "virtually recovered" and planning to leave for England shortly.

### Refuses Delay In Appeal

Trenton, N.J.—The court of errors and appeals denied the motion of Bruno Richard Hauptmann's attorneys for a delay until October in his appeal from the Lindbergh kidnap-murder conviction and fixed the date of argument for June 20.

### Report Denied In Berlin

Berlin.—The German foreign office has denied reports that Germany had offered a military air force and experts to Ethiopia. A spokesman said that direct hostility to Italy, whereas Germany was maintaining strict neutrality.

## Demand Overtaking Supply

North America May Have Shortage Of Oil And Gasoline

Victoria.—Shortage of oil and gasoline in North America because the rate of consumption is overtaking the supply was presaged by Counsel C. H. O'Halloran, when Mr. Justice M. A. Macdonald's commission investigating the fuel industry in British Columbia resumed sittings here.

Mr. O'Halloran read authoritative figures from trade journals which placed the proven coal reserves of the United States at 3,500,000,000 tons, equivalent to 4,800 years' supply at the present rate of production. The natural gas supply was placed at enough for 20 years, while the proven petroleum reserves were reported down to 13,000,000,000 barrels, representing 14 years' supply on the present consumption basis.

"It is entirely conceivable that in a few years oil will be exhausted," Mr. O'Halloran said.

"We will get gasoline from coal then," said Mr. Justice Macdonald. "That has been discussed. The research council at Ottawa has been doing work on this."

### Bill Given Royal Assent

Diomedes Babies Are New Special Wards Of King

Toronto.—Royal assent was given in the Ontario legislature by Lieut. Governor Herbert A. Bruce to the bill which makes the Diomedes quintuplets "special wards of His Majesty the King" until they reach the age of 18.

Minister of Welfare David A. Croll is made special guardian of the babies and the bill gives him power to appoint active guardians. These, he has announced, will be Olivia Dionne, father of the famous girl, and Dr. A. A. Dufour, their physician. Control of the babies' person and estate is vested in the minister, and he must approve all contracts regarding the babies. Contracts previously not approved are rendered null and void.

### Officers For Bisley Team

Appointments Have Been Announced By Rifle Association

Ottawa.—Brigadier W. B. Anderson, officer commanding military district No. 3 at Kingston, Ont., and Major J. T. Dempster, Queen's Own Rifles (reserve), Toronto, have been appointed officer commanding and adjutant, respectively, of the 1935 Canadian Bisley team, the Dominion of Canada Rifle Association announced here.

Brig. Anderson was an officer of the old 43rd Regiment and has since had experience in several military districts in Canada including Winnipeg, district 10.

The Canadian Bisley team will sail for England, June 14, and return July 24.

### New Japanese Envoy

Tokyo.—Sotomatsu Kato, counselor of the Japanese embassy at London, has been selected for early appointment as minister to Canada. Kato, who was formerly counselor of the Washington embassy, will replace Iyemasa Tokugawa as minister to Canada. Tokugawa recently was named ambassador to Turkey.

### EUROPE WAITS THEIR DECISION

Sir John Simon, left, British Foreign Secretary, and Captain Anthony Eden, right Lord Privy Seal, conferred with the Hitler administration on the German re-armament issue. Baron von Neurath, German Foreign Minister, was spokesman.

## ISOLATES VITAMIN B

Ending twenty-five years of extensive research, Robert R. Williams, reported to the American Chemical Society his discovery of the chemical structure of Vitamin B, which is expected to aid in the treatment of nervous cases.

## Drops Gold Standard

But Belgium Remains True To Principle States Premier

Brussels.—Belgium has decided to inflate its currency 25 per cent. and vest its coalition government with economic dictatorial powers for one year.

By the overwhelming majority of 133 to 11, with one abstention, the chamber of deputies voted in favor of Premier Paul Van Zeeland's devaluation measure, which was enforced March 31.

Belgium nevertheless remains faithful to the gold standard principle, and will move to establish the belga at a new gold parity, which will represent a maximum inflation of 30 per cent.

The chamber finance commission adopted the finance bill 16 to 8, with one abstention, and the measure for giving the government one year's special powers 14 to 9, with two abstentions.

"We remain faithful to the principle of the gold standard," Dr. Van Zeeland said in his declaration of policy, "and hope to see it re-established, without delay, under conditions that will ensure its effective functioning internationally."

### Prohibits Sunday Sales Talks

Ottawa.—The Canadian Radio Commission has decided to prohibit sales talks or spot advertising on Sundays over Canadian stations. This will apply to all stations in the Dominion. Date when the new order will take effect will not be fixed until a study has been made of existing contracts.

### Gets New Appointment

Winnipeg.—Dr. K. W. Neathy, cereal specialist of the Dominion rust research laboratory here, has been appointed professor of field crops at the University of Alberta, Edmonton. Dr. Neathy will succeed Dr. Aamodt, leaving to take a post with the University of Wisconsin. He will leave here May 1.

## New Stockyards Said To Be Recommended In Mass Buying Report

### Scouts Plan Beacon Chain

Lord Baden-Powell Will Light One At Winnipeg

Ottawa.—Plans for the celebration of the King's Silver Jubilee, May 6, by a chain of Boy Scout beacons across Canada, with Lord Baden-Powell lighting the "mid-Canada" beacon at Winnipeg, to pass the fire from east to west, were announced at Dominion headquarters of the Boy Scout Association.

The first beacon will be lighted at dusk on the shores of the Atlantic by one of the easternmost Scout units in Cape Breton island and as twilight falls a row of beacons will flare up at scouting centres across the maritimes, Quebec and Ontario to Manitoba.

At Winnipeg, Lord Baden-Powell, world chief Scout, on his way east on a tour of the Dominion, will participate in the ceremony of lighting a beacon which has been designated the mid-Canada beacon. Lighting of this beacon will pass on the bonfire celebration of Scouts of eastern Canada to those of the west, across the prairies and British Columbia, to conclude with a final flare on a headland overlooking the Pacific.

In addition to the beacons, wherever possible, a royal salute of 21 rockets will be fired.

### Left Appeal With Government

Not Much Headway Made By Canadian Mayors At Ottawa

Ottawa.—Forty-five mayors from Canadian towns and cities have gone home, leaving with the government a unanimous appeal that the administration abandon the entire cost of direct relief and a suggestion the cost be defrayed by newly created money based on the Dominion's wealth.

Before they left the visitors were tendered a luncheon by Mayor P. J. Nolan and the Ottawa city council at which Mayor C. H. Barendse of St. Boniface, Man., criticized the government for its refusal to permit the party to appear before the bar of the House of Commons.

The mayors appointed a permanent committee headed by Camilleien Houck of Montreal, chief magistrate, to be called the "mayors' continuing conference."

While receiving a promise from the government that careful consideration would be given to their representations, the drive of the mayors of Canadian municipalities for relief from unemployment relief expenditures ended in complete failure.

### New Members Appointed

Will Hold Office On Pension Board For Two Years

Ottawa.—The government has appointed four new members of the Canadian pension commission, according to an announcement by Minister of Pension Donald M. Sutherland. The appointees are: Dr. Frederick C. Bell, Vancouver; Charles D. Crowe, Guelph, Ont.; Antoine Chasse of Ottawa and Dr. Seymour G. MacKenzie, Halifax.

The new commissioners will hold office for two years as from April 1. Their salary will be the same as those of the other members of the pension board, \$6,000 per annum.

Ottawa.—New livestock yards to provide farmers in all parts of Canada with competitive markets were said to be recommended in the mass buying report just completed. Investigation into livestock marketing was one of the most important features of the probe, which lasted almost 14 months.

Considerable controversy developed during the hearing over the proposal that packers be forced to buy through competitive markets instead of from truckers who purchased livestock from farmers and delivered direct to the abattoirs. It was contended on behalf of livestock yards that the direct buying resulted in producers getting less than they were entitled to because the packers with access to these yards were able to hold off the competitive markets and force down prices.

Suggestion is made that where there is only one abattoir, as in Hull, Que., Peterboro, London, St. Catharines, Galt and other points, livestock yards be provided in connection with these plants. In other points such as Hamilton and Kitchener, where there are two packing plants, one yard would be provided to serve the two.

These stockyards would not have all the facilities of the union stockyards in Toronto but they would provide competitive markets and any butcher or other purchaser might go into them and bid against packers.

A farmer, however, could still sell to a packer direct if he wished. The commission decided it would not be wise to crush out the practice of direct selling, but that in each point where there was an abattoir there would be provision for competitive selling.

What is regarded as even more important is that these comparatively small yards would be subject to the same government inspection and prices paid would be made public the same as in the big yards.

### Jobless Riot In Toronto

Discontent With Relief Allowances Said To Be Cause

Toronto.—Led by a stubby, gray-haired woman wearing an old felt hat, 500 York township unemployed men and women gathered here, shattered windows and engaged in a stone and bottle-throwing riot with police.

The demonstration, which lasted for nearly an hour before the mob was dispersed, grew out of discontent of the jobless with relief allowances.

Six policemen were injured by flying bricks, glass and flats and feet of the rioters. None was seriously enough hurt to retire from duty.

Thirteen were arrested and held without bail. Authorities stated they would be charged with obstructing police in the performance of their duties, or assaulting police, or inciting to riot.

### Duke Of Gloucester Home

London.—After many months abroad the Duke of Gloucester has returned to England and received an enthusiastic welcome. The Prince of Wales and Duke of York went to Portsmouth to greet their younger brother, who has spent the last seven months on a tour that covered Australia, New Zealand and the British West Indies.

## Government Hears Plan Of Third Party Leader To Conscript High Incomes

Ottawa.—A share-the-wealth program was launched in the House of Commons by James S. Woodsworth, C.C.F. leader, when he continued the budget debate.

Conscription of high incomes and implements of production was urged by the third-party leader. He criticized the income surtax announced in the budget as a delusion and could see no reason why an income of \$200,000 should not be cut to \$40,000 or \$50,000 by state taxes. The surtax would cut it to \$180,000, apart from other taxes.

"We have reached the point," Mr. Woodsworth declared, "when we shall have to regard the great resources and equipment of this coun-

try as essentially the property of the Canadian people to be administered for the needs of the masses."

Eleven thousand Canadians, each with an income of \$10,000 or over, receive more each year than 400,000 of the poorest paid workmen, the C.C.F. leader declared. Eighty per cent. of the people were paid \$1,500 a year or less and the remaining 20 per cent. earned almost half the total income of the country.

Two other speakers took the floor, J. A. Fraser (Cops., Cariboo) and Dr. F. W. Gershaw (Lib., Medicine Hat). With the exception of Hon. J. L. Raitson, the financial critic, Dr. Gershaw was the first Liberal to speak.

(Continued from Page 1)

fore going to Alberta, where he has been continuously employed ever since, although he has found time on numerous occasions to visit the coal mining areas, not only in Canada and the United States, but of England and the continent as well.

Mr. Whiteside spent his first nine years in Alberta with the H. W. McNeill Co. Ltd., at their Anthracite and Canmore Collieries, first as mining engineer and later as general superintendent. In 1904 he accepted an appointment as general manager of the West Canadian Collieries at Frank, where he remained until 1908, when he resigned to accept the position as general manager of International Coal & Coke Co. Ltd.'s mines and works here.

Mr. Whiteside is a charter member of the Canadian Institute of Mining and Metallurgy, and has always taken keen interest in its affairs. He has been a member of the Institute's council for the terms 1910, 1912, 1914 and 1916, and has been closely connected with the activities of the Rocky Mountain branch, of which he was one of the original organizers. He was also one of the organizers of the Western Coal Operators Association, which was formed about 29 years ago, and was elected president of the association in 1920.

Mr. Whiteside has not announced definite plans for his immediate movements following his retirement, as he has business matters to attend to both in eastern and western Canada. Wherever he and Mrs. Whiteside may settle, they may rest assured that the good wishes of Coleman friends will follow them.

### MAKING THE AIR SIZZLE

Following is an extract from Father Coughlin's radio address, answering General Johnson's attack, as published in the New York Times:

"The fantastic fusillade of false charges which the genial ghost, the kind chocolate soldier and the sweet prince of bombast so engagingly publicized certainly was not potent enough to arouse my wrath. More important things must be accomplished. I dare not be diverted from my course by a red herring, even though it chances to be a dead one."

Section 98 of the Criminal Code of Canada is raised at by Communists because it is placed on the statutes to penalize those guilty of seditious utterances against the state. They say it is a restraint of free speech. In Russia, those who strive to bring back conditions not in accord with governmental views are shot, according to a delegate of Creston district who spoke on his experiences at Cranbrook. They are treated as enemies of the state. Thomas E. Mountford was the name of the delegate.

## The Churches

### ST. ALBAN'S CHURCH

Next Sunday; the 5th in Lent. Services as follows—11 a. m. Holy Communion; 12:30 p. m. Sunday school.

Holy communion on Friday at 10 a. m.; evensong and bible study at 7:30 p. m.

### ST. PAUL'S UNITED CHURCH

Anniversary Services morning and evening at St. Paul's United church, Sunday, April 7. The junior choir will render special music and in the evening Miss Lena Fraser of Blairmore will sing. Rev. J. Williams Ogden of Vancouver will be the special preacher, bringing messages of inspiration and helpfulness. Make this a great day. All members, friends, adherents and visitors are cordially invited. Make this a red letter day.

Special services will be held every night next week. On Monday the service will be at 7:30 p. m. Dr. Ogden will preach Monday, Tuesday, Thursday and Friday. On Wednesday Dr. Hugh Dobson, associate secretary of Evangelism and Social Service, will give an address in the church at 7 p. m. on the subject "Christianizing the Social Order."

Make this mission a success by your attendance and interest. Anniversary supper on Monday from 5 to 7 p. m. in the Pythian hall.

**NO COMPROMISE**  
While ceding Great Britain the right to possess the largest navy in the world because of her far-flung Dominions and Colonies, Tameo Marsudaira, above, declared Japan would not be satisfied with anything less than full naval equality with the United States.

### Canadian Pacific Offers Low Fares For Easter

For the convenience of those wishing to visit relatives and friends over the Easter weekend, special low fares will apply over Canadian Pacific lines it was announced by C. W. McKinnon, agent at Coleman.

Single fare and one-quarter for the round trip will be good going April 19 to 21 inclusive, with return from destination not later than April 22. Those desiring longer limit may obtain ticket at single fare and one-third, going April 18 to 21 inclusive, returning leave destination April 23.

The appointment of John Buchan, Scottish member of parliament, the first to fill the post of governor-general of Canada, has met with general approval throughout Canada. He will assume office on completion of Earl Bessborough's term in the fall.

## Salvation Army

The Salvation Army. Capt. H. F. Hotvedt and Lieut. F. J. Weir. Sunday school at 3 p. m. Salvation meeting at 7 p. m. We will be calling at your home with the Easter War Cry, everybody should have one.

Through the courtesy of the C. P. R., slides showing scenes entitled "On A Trip to the Orient" will be shown in the Army hall, Friday, April 5 at 7:30. Admission 5c.

Advertise in the paper which is PUBLISHED IN COLEMAN.

# HAROLD JONES is the New Local HUDSON-TERRAPLANE Dealer

**NEW MODELS now on display in Our Showrooms... All Steel Bodies Featured.**

Jones Motors, of Coleman, have been appointed new sales representatives in this area for the 1935 Terraplane-Hudson line, according to the announcement of Ross Mackinnon, vice-president and general manager of Hudson Motors of Canada Limited.

Two outstanding engineering advancements are introduced in the new Terraplanes and Hudsons. The "Electric Hand," a pre-selective device for gear-shifting, relegates the old-fashioned gear-shift to the tool box and clears the front compartment. The steel roof, in conjunction with unit construction, gives for the first time a complete all-round protection with steel. No wood is used for structural purposes, even the floor is a single steel plate.

Offering a wide range to the Canadian motorist in the lowest price field, the 1935 Terraplanes are the biggest and most powerful Hudson-built offerings to date. There are two Terraplanes Six series, the Special and

the De Luxe, on a 112-inch wheelbase and equipped with 88-horsepower motors. New in 1935 and offered in five models is the Hudson Big Six on 116-inch wheelbase with 93 horsepower motors. An innovation in the medium price field are the custom-built Hudsons, a custom club sedan and the custom brougham, built on a wheelbase of 124 inches with 113-horsepower motors or, with the optional high compressor head, 124-horsepower.

Longer and lower and fleet in appearance, the 1935 Terraplanes and Hudsons have roomier interiors than ever before, as evidenced in the increased width of seats and the greater leg-room. Improved mechanical refinements have resulted in even higher standards of performance and economy. The new rotary equalizing brake system is introduced and a change in the piston design increases lubricating economy materially. A wide range in color and body design is offered the motorist.

... One of Coleman's Best-Known Automobile Distributors Now Sells HUDSONS and TERRAPLANES

**Jones Motors**  
Main Street, Coleman Phone 51

HAROLD JONES

It is a pleasure to handle automobiles in which we have the implicit confidence we place in Hudsons and Terraplanes and which have everything other cars offer, plus many desirable features found in them alone. We pledge ourselves to devote the facilities of our entire organization to the courteous and careful service of all our customers.

**SERVICE.**  
It will be our policy to continue our efficient service to our old customers and extend our facilities to owners of Hudson, Terraplane and Essex cars. Our service men have had a thorough training in the repair and adjustment of Hudson-built cars.

## And Here's Why---

Quick to sense the trend of public favor, Jones Motors have decided to concentrate all their efforts on selling Hudsons and Hudson-built Terraplanes. For the 1935 Hudsons and Terraplanes, with the Electric Hand, are already the year's sensations!

The chief reasons for this decision are in the cars themselves. There's new styling in these 1935 Hudsons and Terraplanes. Longer, lower bodies, gracefully narrowed radiators. There's new durability and safety, too, with roofs of steel on bodies all of steel. There's more power—flashing acceleration—greater gas and oil economy. More of everything you want in an automobile.

And the Electric Hand—Exclusive to Hudson-built cars, provides magical new driving ease, comfort and safety.

Jones Motors chose the Hudson franchise the way you should choose the car you buy. They compared all the cars—feature for feature, with what Hudson and Terraplane had to offer. Their decision was made on facts.

We welcome Jones Motors to the Hudson-Terraplane dealer organization.

Basin, safer driving... nothing new to learn. An exclusive feature... standard on Hudson Custom Eight; optional (for a small amount extra) on all other 1935 Hudsons and Terraplanes.

**ELECTRIC HAND... STEEL ROOFS  
BALANCED RIDING... 1935's THREE "HIT FEATURES"**

Introduced only a few weeks ago, the Electric Hand is already the year's sensation! Faster, smoother, easier shifting without ever taking your hands from the wheel. Front compartment entirely free of gear shift and brake levers.

Two other 1935 advancements have held the spotlight wherever new cars have been shown. Steel roofs! Smoother, easier riding! And both

are yours in the new Hudsons and Terraplanes—the only cars with ALL THREE of 1935's "hit features." You'll find the first steel roofs on these Hudsons and Terraplanes—and the only bodies completely of steel. You'll find balanced riding—with the plus advantage of the exclusive Hudson method of springing that cradles the entire car.

Now you get even greater performance from cars long known as the greatest performing of all stock cars. Big Bendix Rotary-Equalized Brakes—that always stop you safely!

See these new cars now. Then compare Hudson and Terraplane with other cars, feature for feature—and buy on facts.

Main Street, COLEMAN

"I tried that recipe you gave me for Mustard Pickles Mary, but it didn't turn out at all like yours."

"That's too bad, Jane. I've always had such wonderful results with Keen's Mustard!"

"Oh, I didn't use Keen's!"

"There's your trouble, Jane, right there. Keen's Mustard has the strength, flavour and 'zip' that is not found in any other."

## KEEN'S D.S.F. MUSTARD

Made from seed grown especially in the East of England. The shells and seeds are removed after the time being in the inner part of the seed. A superior grade makes the full flavour readily available. In original tins for sale at 10c.

Coleman-Keen (Canada) Ltd. Ltd. 1000 Anshurst Street, Montreal, Que.

## WORLD HAPPENINGS BRIEFLY TOLD

The government bill appointing an economic council passed third reading in the House of Commons. There was no division.

The crew of four on a 70-ton motor craft were killed when the boat struck a mine, laid during the recent Greek revolt, in Salamis gulf.

Fire destroyed the Alberta Wheat Pool elevator at Kitchissippi, Alta. Of 35,000 bushels capacity, built in 1913, it contained 18,000 bushels of wheat and the loss was around \$15,000.

Gerald C. MacGuire, 37, who catapulted into prominence recently in connection with a "Fascist plot" to seize the United States government, is dead.

With 16 new fighting aeroplanes already ordered, the Australian government plans to order another 36 this year and a similar number next year.

Four Chinese were convicted in county court of smuggling opium valued at \$4,000 into Vancouver from the Canadian Pacific liner Empress of Japan last year.

The King has sent \$250, his second donation to the Implacable Fund, organized to preserve as a national monument the only Trafalgar battle-ship afloat.

Anticipating abnormal crowds in jubilee week, opening May 6, about 250 tea shop managers held a series of meetings in London to discuss ways and means.

Between 10,000 and 50,000 Australians are expected to visit England this summer for the jubilee celebrations and a considerable proportion of these will travel by way of United States or Canada.

Emphatic denial of reports that the government is proposing to bring down legislation to extend by possibly two years the life of the present Alberta legislature, which is scheduled to end next June, was made in the legislature by Premier R. G. Reid.

### X-Ray Revealed Too Much

Ralph J. Anderson, attorney, walked into a doctor's office at Kansas for a physical examination bearing \$15 in his billfold—a \$10 bill and a \$5 bill. The physician passed Anderson under the X-ray machine. When the examination was finished, Anderson asked: "How much do I owe you?" "Fifteen dollars," the physician replied.

Marathon Runner (coming in an easy last)—Did you take my time? Timekeeper—'I didn't have to. You took it yourself.

## RELIEVE PERIODIC PAIN

If you suffer periodic pain and discomfort, try Lydia E. Pinkham's Tablets. In most cases they bring welcome relief. As Mrs. Caroline Newman says, "They ease the pain."

Mrs. Raymond Chapman, Route 4, Tibbury, Ont., says, "I suffered something terrible. Had such backaches and headaches I was worn out. Your Tablets helped me. Let them help you, too. Ask your druggist."

Lydia E. Pinkham's TABLETS

## Long On Philanthropy

English Clergyman With Independent Fortune Made Many Happy

Golden deed, "Five-minute Frank," the Rev. Frank Tatchell, \$600-a-year vicar at Midhurst, Sussex, England, is the object of mourning throughout the district since the arrival of word of his death while on a health cruise in the Indian ocean.

Public spirited charity fortified by an independent fortune made him one of the best known philanthropists.

He converted the old vicarage—a mansion too big for a priest with no family—into almshouses for old people at a rent of one penny a week. He recently gave away 100 pairs of new boots to tramps. He provided emergency brandy at all hours of the day and night in cases of illness. Anyone in need had only to ring a special bell at the vicarage . . . no one was ever turned away. In summer the vicarage garden was as open to parishioners as a public park. He once spent \$7,500 in giving a party of local teachers a continental holiday.

His nickname was earned by the fact that his sermons were never more than five minutes long.

## Interesting Souvenirs

Dated June 1897 Recall Queen Victoria's Diamond Jubilee

Jubilee plans bring jubilee memories for G. E. Davis, of Swift Current, Sask.

A "New Testament" and a cup, given Mr. Davis by the school which he attended in Southborough, Kent, England, commemorate the Diamond Jubilee of Queen Victoria and are dated June 22, 1897. Each of these articles bears a picture of the Queen with the inscription "V.R. 1837-1897 (Long Has She Reigned)."

## FASHION FANCIES

## PRINTED TAFETTA AFFORDS COLORFUL INTEREST TO THIS DARLING CREEPER COSTUME

By Ellen Worth

Here's a delightfully chic little jacket dress for casual wear. It's navy blue sheer silk to be certain and its trim is navy and white taffeta. It's so fresh and young looking, you'll fairly want to live in it.

Note the tied scarf neckline of the dress. The jacket is nipped in at the waist.

It's so utterly simple to make it. Perhaps you'd like it carried out in natural sportswear linen, so modish, with the bodice of the dress in nautical blue handkerchief linen. It's the sort of thing that adds dash to your summer wardrobe.

Style No. 864 is designed for sizes 14, 16, 18 years, 36, 38 and 40-inches bust. Size 16 requires 2½ yards of 56-inch material with 2 yards of 38-inch contrasting and 1½ yards of 38-inch lining for jacket.

Patterns 20 each. Address mail orders to Pattern Department, Winnipeg Newspaper Union, 175 McDermott Ave., Winnipeg.

The Spring Fashion Magazine is better than ever. Entirely illustrated in color you will find it a very stimulating fashion edition. There are clothes for cruising and clothes to brighten the lives of stay-at-homes. Many delightful little models for the smaller members of the family. Course, patterns are obtainable for the designs illustrated. Send for your copy to-day, the price is 20 cents.

## ROUGH HANDS FROM SOAP AND HOT WATER?

## HINDS Honey & Almond CREAM

## YOUR HANDWRITING REVEALS YOUR CHARACTER!

By LAWRENCE HIBBERT (Grapho-Analyst) (All Rights Reserved)

(Editor's Note: Letters come in every day testifying to the help that this well-known Handwriting Expert has been able to extend to others. Can he help you?)

Here are some more replies to correspondents. Readers may find some of their own difficulties and problems dealt with here.

Miss D. C.: Your writing reveals that you are somewhat disposed to enlarge apparent slights and to resent them. Yours is not a nature that easily forgives; and this is where you might start to develop a broader point of view. Do not be in too much of a hurry to impute "base" motives to others. Do not be quarrelsome, nor allow yourself to get too easily irritated. And, solve the problem carry a chip on your shoulders. There is no surer way to lose your popularity and your friends.

You are, perhaps, inclined to be a trifle selfish. It is all very well to be methodical and to deal carefully with things that come up day by day. But don't over do it. It ceases to be a virtue and becomes a nuisance not only to yourself but to others.

Mrs. M. G. A.: In regard to your singing—keep at it. It is no use getting downhearted and apologetic about it. There is only one way in which you can expect to get anywhere in this, and it is by keeping at it. You have given up on it because it would be a pity to ignore it, or not to try really earnestly to get the best from it, merely because of a few passing disappointments. Remember Robert Bruce and the spider!

Miss S. writes for advice: "I am 17 years of age and in love with a man of 38. My parents do not approve of my having anything to do with him, and yet I don't want to marry me. I think the world of him, and do not know what I should do if he gives him up. What do you advise?"

I believe that you would be doing a very unwise thing to marry him. His writing tells me that he is of a domineering nature, is selfish and undoubtedly is very set in his ways. He is not at all of the generous or sympathetic type. Your own writing, on the other hand, shows that you are inclined to be kind and changeable. You are, in my opinion, "in love with love" than with your friend. In any case, you are too young to do anything serious in this matter at the present, and it will do you no harm to wait a while.

Would you like to have your handwriting analysed? And perhaps you have some friends who have been asked to do so? My friend Mr. Hilbert can help you as he has helped so many others. Send specimens of the handwriting you wish to be analysed, and enclose 10 cent coin for each. Send birthdate in each case, and enclose with 3c stamped addressed envelope to: Lawrence Hilbert, Winnipeg Newspaper Union, 175 McDermott Ave., Winnipeg, Man. Letters are confidential and replies will be forwarded as soon as possible.

## Finest Organ In World

Wonderful Instrument At Royal Albert Hall In London

It took six years' work and cost \$130,000 to complete the new organ at the Royal Albert Hall, London, which is the finest in the world. The organ has a most complete range of tonal color. It weighs 175 tons, occupies 65,000 cubic feet of space, has seven total departments, four keyboards, 175 draw stops, 10,491 speaking pipes, 80 miles of electric cable. One hundred and twelve craftsmen were employed during the course of erection and it will cost \$10,000 a year in tune. Its sonority can be terrific and it has an embarrassing number of stops.

History Of The Sponge The history of sponges dates back to the time of Aristotle, when Greek warriors used them to pad their helmets. Not until the middle of the 19th century did microscopic research definitely prove them to be animals and not plants.

## DATENTIONS

A List Of "Wanted Inventors" and Full Information Sent Free On Request. The RAMSAY Co. 272 BANK ST., OTTAWA, Ont.

## Cycling Boom In England

Manufacturers Have Been Kept Busy Supplying Large Demand

Forced by the depression of a few years ago to give up their motor-cycles, many young men in Great Britain quickly discovered a new stimulus to health and escape from crowded cities in the form of the humble push-bike. Out of this necessitous movement the great cycling boom of to-day has grown. Now, it is authoritatively computed, 10,000,000 people are riding cycles and tandems along the roads and by-ways of Britain, reaping untold health and enjoyment.

To cope with an unprecedented demand for new machines, British manufacturers have been compelled to reconstruct and, in many cases, redouble the output of their plants. One firm which produced 220,000 cycles and tandems in 1931, 270,000 in 1932, and 410,000 in 1933, already turned out 700,000 new machines. The total production of 1934 will, it is anticipated, reach the record figure of 1,500,000 machines, or 500,000 more than the previous year's total.

Both the Cyclists' Touring Club and National Cyclists Union have been inundated with new members in the last few months. The latter now enjoys a membership of 40,000 compared with 32,000 in 1933. In London alone are over 400 cycling clubs. Two recently established are for women only.

## One Of World's Best

Young Englishman Commands Imperial Airways Enormous Passenger Liners

The 25-year-old with the best flying job in England is Captain James T. Percy, who has just been promoted to the command of the enormous Imperial Airways 40-passenger liners, and who is now qualified to take full control of the world's largest land aeroplanes on the world's longest air line.

Air-minded, air crazy, nine years ago Percy begged and borrowed rides from pilots until he won his private pilot's license. He joined Imperial Airways in the most junior of positions, engineer apprentice. After three years of greasing—and scrapping, he collected enough money to earn a commercial pilot's license. He learned navigation and radio, flew cross channel routes and is now the youngest first rank pilot in Europe.

## Recipes For This Week

(By Betty Barclay)

### BRAN CORN MEAL MUFFINS

3 tablespoons shortening  
½ cup sugar  
1 egg (well beaten)  
1 cup milk  
1 cup all-bran  
1 cup corn meal  
1½ cups flour  
1 teaspoon salt  
4½ teaspoons baking powder.

Cream shortening and sugar. Add eggs, milk, bran and corn meal. Stir flour with salt and baking powder and add to first mixture. Stir only until flour disappears. Bake in greased muffin tins in a moderate oven (375-400 degrees F.) for 20 to 25 minutes.

Yield: 12 muffins.

### TROPICAL DELIGHT

4 ripe bananas  
½ cup orange juice  
4 tablespoons brown sugar  
1 cup shredded coconut  
Peel bananas and cut in half lengthwise. Arrange in layers in greased baking dish. Mix orange juice with brown sugar and pour over bananas. Sprinkle thickly with coconut. Bake in hot oven until bananas are tender and coconut is brown. Serve immediately. Serves 4.

Yield: 12 muffins.

### More Poultry Exported

Poultry exports in February amounted to 786,000 pounds valued at \$141,606, more than four times that of the same month last year when 141,085 pounds were valued at \$26,036 were exported, the Dominion bureau of statistics reported.

Why certain animals sleep through the winter is not completely understood; lack of sugar in the blood is one possible explanation.

## SUNDAY SCHOOL LESSON APRIL 7

### THE HEAVENLY FATHER

Golden text: Like as a father pitieth his children, so the Lord pitieth them that fear Him. Psalm 103:13.

Devotional reading: John 3:3-6; 4:20-24.

### Explanations And Comments

Christ the Revealer of the Father, verses 8-11. If the disciples had fully apprehended their Master, if they had fully grasped the fact of his divinity, they would have apprehended the Father also, Jesus told them. Philip wanted sight, not faith, and interrupted Jesus with his request, "Lord, show us the Father, and it sufficeth us." He longed for such a revelation of the Father as would banish all fear and inspire perfect trust. What he needed was not to have heaven opened but to have his eyes opened."

Pained at Philip's question, Jesus questioned Philip, "Have I been so long with you, and yet thou knowest me not, Philip? He that hath seen me, hath seen the Father; how sayest thou then (what you mean by saying, 'Moffatt's translation), Show us the Father?'"

Jesus' word of Christ's to Philip expressed the very thing that had now come to pass in his own life. For with me also it had become clear that to see the Father and to understand his love." (C. F. Andrews).

Jesus continued: "My words and works are the Father's. Believe that I and the Father are one because of my words alone, but if you cannot do this, believe me because of my life and words which prove this." What Jesus Christ is seen to be in the three years of his recorded life, the Spirit of God is in the history of the human race.

"Men had knowledge of God before Christ came. Men could not gaze at the works of God without being reminded of his power and Godhead. The world inevitably suggested the thought of a Creator. But you can never learn a person's character from the works of his hands. The real secrets of personality can never be disclosed by means of things. Personality can only express itself through personality. God could never disclose his nature by means of the stars. He could never reveal his heart in storm and tempest. It was only in and through a Person that God could reveal to men his real name and nature. In Christ God has made himself known." (J. D. Jones).

### Miser's Queer Habit

### Stinted On Food But Lit Pipe With POUND NOTES

London, it seems, has harbored an old miser who lit his pipe with five-dollar notes.

Edwin Thomas Howes was found dead in humble lodgings in southeast London, with nearly \$300 in his trousers pockets. He had \$1,105 in postoffice savings.

At the inquest a relative testified that Howes regularly stinted himself on food and the ordinary comforts of life—but had the expensive habit of lighting his pipe with one-pound notes.

## Little Journeys In Science

### CELLULOSE

(By Gordon H. Guest, M.A.)

Cellulose makes up the chief part of the cell walls of plants. Cotton is about 95 per cent cellulose, and the materials making up the remainder 15 per cent, can be easily removed with certain solvents, leaving the pure cellulose. Absorbent cotton is almost pure cellulose. Scientists have found that cellulose does not dissolve in any of the ordinary solvents, but is converted into soluble compounds by the action of certain chemicals. Thus, it has been found that when cellulose is treated with lye, a compound is produced which is soluble in a liquid called carbon disulphide. This reaction is the basis of the production of most of the rayon in America.

Science has also changed this important plant product into many other useful substances. For example, when it is treated with concentrated sulfuric acid it is changed into dextrose or grape sugar, which is used in large quantities in the production of alcohol, jellies, jams, syrups and other sweets. Sulfuric acid of the proper strength converts cellulose into paraffin, which is a substance known as nitrocellulose is produced. Nitrocellulose is a white inflammable solid which under certain conditions is highly explosive.

Nitrocellulose has many important commercial uses. It is the chief constituent of smokeless gunpowders. Photographic films are also made from it. It is the basic material in all the lacquers that have been used so much in recent times, especially in the automobile industry. Imitation leather used for bookbinding, automobile cushions, hand bags, and trunks consist of a canvas base coated with nitrocellulose. Celluloid is a solution of nitrocellulose in a mixture of alcohol and ether. Celluloid and similar substances are mixtures of nitrocellulose and camphor. It is well to remember that celluloid is inflammable as many serious accidents have resulted from bringing it near a hot flame.

### May Have Sand Beach

Up-To-Date Swimming Pool On Liner "Queen Mary"

Specimen sections of the proposed grand stairway in the Curand-White Star liner Queen Mary, show that the walls of the stairway will be paneled with paintings by prominent artists.

Work has been started on the first class swimming pool, where Italians are directing the laying of a special kind of ornamental tile.

There will be an artificial palm beach adjoining the first class pool, where the palms will be stirred leisurely by soft breezes from hidden fans.

Margate corporation has offered to supply sand for the beach.

A historian wants to find the author of the first cowboy song. As justice in the old West was quick he doubtless lies in an unmarked grave.

## Are You Rundown, Tired?

Mrs. Mabel Murphy of 11 Westinghouse Ave., Ave. 4, Hamilton, Ont., said: "About five years ago I was terribly run-down, had indigestion, could sleep or eat, lost strength, and my weight fell 30 pounds. Before I had finished the first bottle of Dr. Pierce's Favorite Prescription I felt much better, had more strength and better digestion." Each bottle, 50c, 10c, 25c, 50c, 100c, 150c, 200c, 250c, 300c, 350c, 400c, 450c, 500c, 550c, 600c, 650c, 700c, 750c, 800c, 850c, 900c, 950c, 1000c.

### LOCAL AND GENERAL

Keep in mind a visit to Tufeland at Graham's beauty parlor.

Mr. and Mrs. E. C. Costick and daughters of Bellevue were visitors to town on Monday evening.

Mr. A. Kulig is welcomed among the new subscribers to The Journal list this week.

R. H. Cardinal of the bank staff is on holidays and C. A. Desson of Claresholm is relieving.

Ivor Morgan returned from Calgary Technical school on Saturday to spend the Easter holidays at the home of his parents.

The Scottish Musical Players will appear in their return trans-Canada tour from the Pacific coast in Coleman Community hall on Sat. April 13.

McKeen Hunter is still a patient in Holy Cross hospital, Calgary, where he is receiving treatment for an injury sustained a considerable time ago in International mine.

Mrs. Geo. Kellock held a second bridge party in aid of the Jamboree fund. Prizes were won by Mrs. J. A. McLeod, Mrs. Borden and consolation by Miss Powell. Miss Yuill was awarded a special prize.

The nose dive of the temperature this week to 15 below zero was responsible for an epidemic of colds which kept many at home for varying periods. It was so cold it dampened the small boys' ardor for playing "April Fool."

A recent report in The Journal incorrectly stated that Mrs. C. Maurer's mother had died in Vancouver, whereas it should have read her father, Mr. Chas. Fox, aged 70 years. Besides Mrs. Maurer, the surviving members of the family are Mrs. Fox, Vancouver, and a daughter, Mrs. J. McMullen of Proctor, B. C.

### CLASSIFIED ADVERTISEMENTS
